RESPONSE TO OFFICE ACTION

Honorable Commissioner of Patents and Trademarks
Alexandria, Virginia

SIR:

This paper is presented in response to the Office Action dated August 27, 2007. There are fifty seven (57) claims pending in this application. The Applicant conducted an interview with the Examiner and the Primary Examiner on November 2, 2007. At issue was the unique environment of the intracranial arteries and the mechanisms of the Applicant's device that are constructed to work in that environment. Also discussed was modification of claim language to distinguish the Applicant's device from devices utilized to treat cardio-vascular issues.
